

# million times

chorus:

million times i looked for love  
million tears left my heart  
million nights i spent alone  
million hearts were hearts of stone

**verse1:**

million times i said i love you  
million lies but no truth  
every word of you was lied  
million times my heart broke i died  
through million ways of love i walked  
broken hearts broken thoughts  
million times inside my life  
in darkness i looked for light

**chorus:**

million times i looked for love  
million tears left my heart  
million nights i spent alone  
million hearts were hearts of stone

**verse2:**

million times i felt sad  
million girls was so bad  
million times i wanted love  
million times was not enough  
million stars in universe  
but no one for my earth  
million times without you  
where are you my love my true
